

To Whom It May Concern:

It has come to my attention that the new LPFM expansion threatens one of my favorite radio stations. I have been listening to KLOVE (repeated locally at 90.7 FM WAZP) since they came to the Hampton Roads area. Their uplifting message is an encouragement to me and my friends. Their Christian message and music provide for both a wholesome and entertaining listen. Despite being a 'national broadcast', their local sponsorship of concerts and other events is a valuable service for like-minded people in the Hampton Roads area. Also, their staff pastors give freely of their time counsel anyone who is in need. It would be a great loss to our area should the KLOVE cease translating in south east Virginia. Thank you for your time,

Daniel Block
